ENHANCE YOUR FACILITY WITH

# ECHELON SMART FITNESS EQUIPMENT

## BUILD A DIGITALLY CONNECTED EXPERIENCE

Guests have 24/7 access to live classes, a wide variety of on-demand workouts, and scenic routes filmed in destinations around the world — whether led by Echelon's expert instructors or in freestyle mode, guests can expect to be challenged and motivated along the way.

### ECHELON EX-PRO CONNECT BIKE

The EX-Pro is the perfect bike for high-use facilities with commercial-grade features designed for durability and reduced maintenance. The Morse taper crank is unmatched, and the up/down & fore/aft adjustment levers feature a quick-ratchet design that locks the handlebars and seat into a precise setting.

### ECHELON EX-7S CONNECT BIKE

The EX-7s is designed for small gyms and other commercial studio environments. It features an oversized, heavy duty crank, dual-sided pedals, and soft rubber-coated steel water bottle holders.

### ECHELON STRIDE-7S SMART TREADMILL

The Echelon Stride-7s features a 32" class HD touchscreen that creates an immersive experience with our class content, instructors and workout engagement. Customize the intensity of any workout with speed up to 15.5 mph and 15% incline. Track heart rate with the integrated handlebar pulse monitors.

### ECHELON ROW-7S SMART ROWER

The Row-7s features a commercial-grade silent resistance system and a contoured comfort seat designed for optimal hip & spine alignment to keep the user in proper form. Thumb controls on the handlebar make on-the-fly resistance changes simple.

### ECHELON REFLECT TOUCH FITNESS MIRROR

The Reflect Touch only requires wall area, making it the perfect fitness solution for any limited floor space. Access thousands of live and on-demand fitness classes directly from the HD touchscreen display. The mirrored surface allows exercisers to sync their form with the instructor.
